

# SPIRITUAL SWORD MISSIONS INDIA JONES NEWSLETTER

July 2017

VOL. 10 NO.7

Greetings to each of you as we began our tenth year working together in India on a full time basis. Together we have with God's great help accomplished so much in the past ten years. At present we have three children's home with 182 children being cared for by strong and loving Christians. We have our own, Theophilus English Medium Christian School, where our children are taught in a Christian environment and away from the influence of Hinduism and Islam prevalent in this country.

By January, with your help, we will open our school on a new campus close to the Rainbow Village that will be able to hold at least 400 students and will have the highest school certification in India providing our children with a quality Christian education. The school will go through the twelfth grade by 2019 and at present we are offering a strong vocational training program in the school for many of our boys.

Our medical programs, including medical evangelism camps, emergency disaster medical camps, midwife training programs and surgical assistance work continues to grow, and open the hearts and then the minds of thousands of people to the Gospel of Jesus Christ. Our new medical, midwifery and women Bible school building is completed and new classes will begin in September.

Our Antioch program continues to grow as we seek to establish fully supporting Indian congregations in the big cities of India. Coupled with this program is our evangelism outreach programs called, "The Spiritual Sword Bible School" and the Spiritual Sword Bible Institute. Both programs have produced many, many converts over the last seven years and provides the matured families we need for our Antioch program.

With your continued prayers, support and mission visits I am excited about what will happen in the next ten years!

## ADOPT A SON MONTH

All of the boys pictured here are in need of sponsors or adoptions. Most of these boys are new to our homes having coming over the last four months. They very much desire a relationship and security that comes from an American brother and sister caring for them. Please consider adopting one of them.

The cost is \$40.00 per month and then an additional \$100.00 in January to help buy school uniforms, shoes and school books. For \$580.00 per year you can make such a difference in their lives. It is so important to us at the villages economically but to the children they want moms and dads, grandmothers and grandfathers in America to write to and to know they are loved and wanted. For a single cup a coffee a day you can make a difference in these children's lives.

Choose one and email me or Cindy or call me. Give us a name of a boy or a girl. We will send you a packet of information, pictures and an address where you can write directly to your child and send small gifts as you would like. Twice a year I will send out their "growing" pictures and letters from them to you.

**Nyapong Konyak**

The \$40.00 is about one-third of the total cost of the complete care of the child (food, housing, medical, schooling, clothing, ect.), but it makes a huge difference in the number of children we can care for and the quality of our care.

**Sumit Sharma**

**Juwel Engti**

At present we have 67 boys at the Mustard Seed Village. They come from seven states of India and two countries. They all come destitute and in need of love, security and care by Christian caregivers.

**Probin Bishwakarma**

**Benya Ram Chakma**

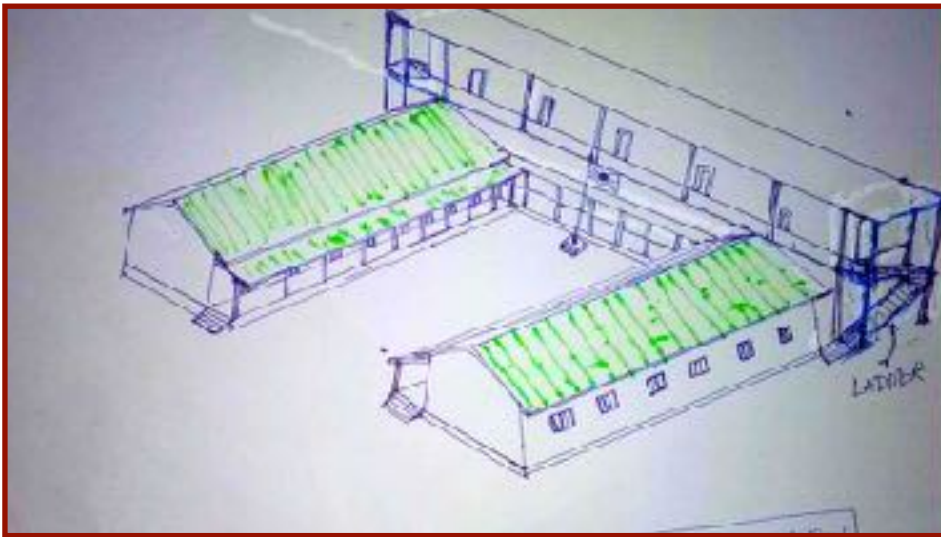

As our boys in this country, they want to learn, to play, to have a safe secure place to grow and find their talents and determine their future goals.

**Chon Ben Ngullie**

All of these boys will have the opportunity and challenge to

# THEOPHILUS CHRISTIAN ENGLISH MEDIUM SCHOOL

The Theophilus English Medium School is halfway completed now. Churches and individuals have giving sacrificially, that we might provide a quality learning environment for all of our orphaned and destitute students as well as poor children in the surrounding area.

The “architectural drawing” above gives you an idea of what the finished buildings and the school complex will look like. The school will consists of 35 rooms including classrooms, administrative offices, teacher’s workroom, science lab, computer lab, infirmary, library, and kitchen/dining area.

We are in need of special funds and gifts to complete the school by October 30th of this year so we can prepare the building for the new school year in January 2018. At present we need to raise \$128,000.00 to complete the building and provide the educational furniture. This is my most pressing need at the moment. Please help as you can.

After we complete the main school building we will begin (phase 2) the construction of our vocational building which will be located adjacent to the main facilities. Vocational training is critical for our children and especially our boys. Most of the boys will not complete class twelve due to such a late start in education in their lives. Most of the boys will go through a vocational training program of two years beginning in class nine. We are at present providing training in electrical, plumbing, carpentry, masonry, motor mechanics, and small engine (motorcycle).

As you look at the pictures of our school being completed you will see that the school will last for many, many years. Our goal is to accept tuition paying students who meet a stringent entry examination of character and education, to help offset and in time, even fully support the financial obligations of the school.

All of our teachers are graduates in the field of education and/or subject they are teaching. Our administration staff is certified in the field of educational administration. Please help us build TEMS.
